

## Announcement

**August 17, 2007**

**Norwalk, CT: August 2007-** Microphase Corporation, a leading manufacturer of microwave and RF components, announces the appointment of RUPPtronik as their exclusive manufacturer representative serving Austria, Germany and Switzerland.

This new addition to the Microphase sales team will assure greater focus and visibility of the Microphase products and capabilities in this market segment. RUPPtronik has sixteen years of experience in the sales and marketing of microwave and RF components. RUPPtronik is very familiar with the specific requirements of the military, space and commercial market areas. Microphase looks forward to a long-term association with our newest agent.
